For MTB gourmets from neighboring countries and also for foreign visitors of the Slovak capital Bratislava we offer 1 - 2 day multi-faceted MTB program in the Little Carpathians. The long Carpathian arc starts from the shore of the Danube with this lovely mountain range. The ridge is 95 km long and stretches 450- 750 m in height. Dense and healthy beech forests, occasionally bright meadows, vineyards on the southern slopes and castle ruins on the north side, peace and quiet is the main characteristic of this romantic mountain landscape. There are not missing **beautiful bike paths**. The total length is 797 km. In recent years many breathtaking and safe single trails have been built here. More than 90 km. With our **MTB guide** really an experience for professionals and also amateurs. The choice (level of difficulty, length and altitude) of the bike paths is huge.
